## SUMMARY

Software Engineer with over 10 years of experience in designing and developing complex and scalable software applications. Proficient in both back-end and front-end development, utilizing a range of technologies including **Java**, **Kotlin**, **TypeScript**, **NodeJS** and **React**. Experienced in leading teams and collaborating with stakeholders to deliver projects on time and within budget. A problem-solver with a passion for learning and staying up-to-date with the latest industry trends and technologies.

## EDUCATION

### Bachelor of Computer Science

St. Petersburg, Russia | 2012 - 2016

HERZEN STATE UNIVERSITY

Coursework: Realtime Collaborative Code Editor

## WORK EXPERIENCE

### MIRO | SENIOR SOFTWARE ENGINEER

Amsterdam, Netherlands | Oct 2021 – Ongoing

- Collaborated with top-tier Miro partners such as Google, Zoom, Microsoft, and Slack to architect, develop, and launch new projects and improve existing ones.
- Pioneered proof-of-concept projects to enhance user experience, resulting in a 70% increase in user retention.
- Led the migration to GitHub for the team's projects, optimizing CI/CD processes and implementing continuous deployment to expedite release cycles.
- Established an SLA for both the team and the company's stream, successfully incorporating on-call rotations and enhancing alerting mechanisms for high operational efficiency.
- Led the BE live coding interviewers guild within the company by improving and overseeing the interview process, creating a comprehensive candidate competency rubric, and maintaining the high quality of interview questions.
- Promoted to Senior Software Engineer in Feb 2023.

### CYBERCUBE | SENIOR SOFTWARE ENGINEER

Tallinn, Estonia | Nov 2019 - Oct 2021

- Spearheaded the design, development, and delivery of high-performance serverless solutions using **AWS**, **GraalVM**, and **Kotlin**, reducing costs and improving efficiency for cybersecurity risk calculations.
- Led the migration of a crucial frontend component from **AngularJS** to **React**, resulting in a significant improvement in performance and maintainability.
- Introduced the concept of micro-frontend architecture across the company's projects, resulting in better team collaboration, faster development cycles, and improved scalability for the company's frontend ecosystem.

### GRABCAD | SENIOR SOFTWARE ENGINEER

Tallinn, Estonia | Mar 2019 – Oct 2019

- Led the development and successful delivery of a 3D-model viewer for GrabCAD, one of the largest online communities of CAD experts.

### OMNIVA | FULL STACK SOFTWARE ENGINEER

Tallinn, Estonia | May 2018 – Mar 2019

- Played a key role in the successful launch of several new projects, notably including the largest sorting line in the Baltic countries.
- Troubleshoot issues with logistics and sorting modules, rapidly identifying and resolving problems to minimize downtime and ensure smooth operations.

### T-SYSTEMS | SENIOR SOFTWARE ENGINEER

St. Petersburg, Russia | Jun 2013 – Apr 2018

- Led technical project for Deutsche Telekom, managing all aspects of the development cycle, from ideation to delivery, including architecture design, testing, and deployment.
- Collaborated with stakeholders to prototype, develop, and integrate solutions, ensuring project objectives were met on time and within budget.
- Mentored junior team members to enhance their technical skills and ensure their professional growth within the organization.

- Utilized strong communication skills to effectively coordinate with cross-functional teams and senior management to drive project success.
- Promoted to Senior Software Engineer in Feb 2017.

## SKILLS

**Languages:** Java, Kotlin, JavaScript, TypeScript, SQL, XML, HTML, CSS

**Frameworks:** Spring Boot, NodeJS, React

**Technologies:** Git, AWS, Docker, REST, Grafana, Prometheus, Sentry

**Soft skills:** Leadership, Communication, Problem-solving, Adaptability, Collaboration, Attention to detail
