SUMMARY

Software Engineer with over 10 years of experience in designing and developing complex and scalable software applications. Proficient in both back-end and front-end development, utilizing a range of technologies including Java, Kotlin, TypeScript, NodeJS and React. Experienced in leading teams and collaborating with stakeholders to deliver projects on time and within budget. A problem-solver with a passion for learning and staying up-to-date with the latest industry trends and technologies.

EXPERIENCE

Software Engineer L5   Oct 2021 - Ongoing
Miro   *Amsterdam, Netherlands*

- Collaborated with top-tier Miro partners such as Google, Zoom, Microsoft, and Slack to architect, develop, and launch new projects and improve existing ones such as Google Meet Integration, Calendar Addon, etc.
- Pioneered proof-of-concept projects to enhance user experience, resulting in a 70% increase in user retention.
- Introduced frontend observability across the company's integrations for peak performance monitoring and visibility.
- Led the migration to GitHub for the team's projects, optimizing CI/CD processes and implementing continuous deployment to expedite release cycles.
- Established an SLA for the team, incorporating automated duty rotations and enhancing alerting mechanisms for increased operational efficiency.

Senior Software Engineer   Nov 2019 - Oct 2021
CyberCube Analytics   *Tallinn, Estonia*

- Spearheaded the design, development, and delivery of high-performance serverless solutions using AWS, GraalVM, and Kotlin, reducing costs and improving efficiency for cybersecurity risk calculations.
- Led the migration of a crucial frontend component from AngularJS to React, resulting in a significant improvement in performance and maintainability.
- Introduced the concept of micro-frontend architecture, resulting in better team collaboration, faster development cycles, and improved scalability for the company's frontend ecosystem.

Senior Software Engineer   Mar 2019 - Oct 2019
GrabCAD   *Tallinn, Estonia*

- Led the development and successful delivery of a 3D-model viewer for GrabCAD, one of the largest online communities of CAD experts.

Full Stack Software Engineer   May 2018 - Feb 2019
Omniva   *Tallinn, Estonia*

- Played a key role in the successful launch of several new projects, notably including the largest sorting line in the Baltic countries.
- Troubleshot issues with logistics and sorting modules, rapidly identifying and resolving problems to minimize downtime and ensure smooth operations.

Senior Software Engineer   Feb 2017 - Apr 2018
T-Systems   *St. Petersburg, Russia*

- Led technical project for Deutsche Telekom, managing all aspects of the development cycle, from ideation to delivery, including architecture design, testing, and deployment.
- Collaborated with stakeholders to prototype, develop, and integrate solutions, ensuring project objectives were met on time and within budget.
- Mentored junior team members to enhance their technical skills and ensure their professional growth within the organization.

- Utilized strong communication skills to effectively coordinate with cross-functional teams and senior management to drive project success.

Software Engineer   2013 - 2017

T-Systems   *St. Petersburg, Russia*

EDUCATION

Bachelor of Computer Science   2012 - 2016

Herzen State University   *St. Petersburg, Russia*

ADDITIONAL

Languages Russian, English

Certifications & Training Oracle Certified Professional - Java SE 6 Programmer 1Z0-808, Oracle Certified Expert - Java EE 6 Web Component Developer Certified Expert 1Z0-899

SKILLS

Languages	Java, Kotlin, JavaScript, TypeScript, SQL, XML, HTML, CSS
Frameworks	Spring Boot, NodeJS, React
Others	AWS, REST, Grafana, Prometheus, Sentry
Soft Skills	Leadership, Communication, Problem-solving, Adaptability, Collaboration, Attention to detail
